Travel with care

Balance the environmental impact of your travel.

Travel that's better for the places we visit.

Travel is a joy and a privilege. It brings enormous benefits to each of us as travellers as well as to the destinations we visit, fostering mutual understanding and improving the quality of life especially in emerging destinations.

We recognise that alongside all those benefits, travel also has an impact on the planet, and we are committed to playing our part to mitigate that as much as we can.

We have partnered with CloudForests to support their work creating forests along Ireland's Wild Atlantic Way.

And when you book your 2024 holiday you have the opportunity to make a contribution towards carbon offsetting. 100% of your contributions will go directly to support projects delivering everything from clean water in Cambodia and renewable energy in Brazil to solar energy in India. Check out our website www.traveldepartment.co.uk/sustainability or ask one of our sales advisors for more information.

Thank you in advance for your support with this important initiative. To make it even more worthwhile, for every contribution you make to these carbon offsetting projects this year we will plant a tree in conjunction with our partners at CloudForests.
